

# Choose The Best WIFI ROUTER

Choosing a suitable WiFi router is not at all as easy as we think. By understanding certain preliminary factors regarding the features of WiFi router, everybody can easily pick out a reasonably priced WiFi that meet their requirements.

## FACTORS TO BE CONSIDERED

### WiFi standards

Check for most modern IEEE standards.

### WiFi speed

Should provide the top speed of your Internet connection.

### WiFi interfaces

Should meet the connectivity requirements with broadband, Ethernet, USB etc.

### BEAM FORMING

Enables the router to spotlight the signal towards precise devices.

### SECURITY

Always use WPA2 to secure your wireless network.

### ROUTERS WITH MU-MIMO

Deliver high-speed data.

### ANTENNAS

Provide best coverage.

### WiFi BAND

Choose dual band WiFi routers.
