

ROBOTIC VACUUM CLEANERS

Want to keep your floors clean without lifting a finger?
Let a robot do the work for you

Pros of using a Robotic vacuum cleaner

-  Robotic vacuum cleaners clean without human interference & save time.
-  Robot vacuums use varying methods of navigation and mapping.
-  Some work better on carpets and some on hard floors. If you want both, buy a hybrid robotic cleaner.
-  Can clean underneath furniture and other tight spots.
-  Most have a battery dock. Vacuum cleaner returns to the dock for charging.
-  Wi-Fi-enabled robot vacuums allow you to control them with a smartphone app.
-  Small size of the robotic vacuum cleaners helps get into all the tight spots.

Cons of using Robotic vacuum cleaners

-  Costly compared to other vacuum cleaners.
-  Cannot work on steps/ different levels.
-  Manual intervention is required for cleaning the filter and bin.
-  Robotic vacuum cleaners have short battery life.
